The screenshot shows the RueschLink web application in a Microsoft Internet Explorer browser window. The address bar displays the URL: https://www.rueschlink.com/Home/RL_Main.asp?NavOpt=0. The browser's menu bar includes File, Edit, View, Go, Favorites, and Help. The toolbar contains icons for Back, Forward, Stop, Refresh, Home, Search, Favorites, History, Channels, Fullscreen, Print, and Exit. The address bar also shows a list of links: Best of the Web, Channel Guide, Customize Links, Free Hotmail, Internet Explorer News, Internet Start, Windows Media, and Windows. The main content area features a navigation bar with links: Home, Pay Today, Plan Cash Flow, Pending Orders, Reports, Beneficiaries, and Configure. Below this is a section titled "Message Center" with a sub-header "Access Your Pending Orders" and a list of three messages: "Welcome to RueschLink", "Forward Contract Access Privileges Alert!", and "Schedule Payment Access Privileges Alert!". The "MarketLink" section displays "Market News" for "Washington, DC" with a date of "2000/11/03 08:04". The text of the market news states: "The euro spiked to a one-month high as the ECB surprised the market by unilaterally intervening in support of the single currency. Although the euro rallied almost two-percent, some of the impact of the intervention was dampened by the fact that it was not carried out in a concerted fashion. The timing of the move was seen as favorable since the euro had already appreciated by approximately four-percent this week against the US dollar. ECB officials cited concern about the global impact of the weak euro as the reason for their second intervention in less than two months. Dollar/yen slipped to a two-week low in relatively quiet conditions as Japanese financial markets were closed for a public holiday. The key US October employment report is due out." The browser's status bar at the bottom shows "Internet zone".
